“Apt, succinct and clear
– it cannot be better.”
Consolidated Discounts Ltd.

WHY ATTEND THIS COURSE?

The key benefits will be that participant will systematically review all elements of a treasury operation and consider the nature of the control environment that should be applied, leading to development of the audit programmes suitable to the firm. Key issues to be addressed will include:

- The role and structure of treasury in the corporation/bank
- The audit of interest rate & foreign exchange risk management
- The audit of asset and liability management
- The audit of liquidity risk management
- The audit approach for sophisticated instruments
- Auditing the measurement of interest rate and currency exposure
- Auditing and analysing different kinds of risk
- Understanding and auditing different risk management instruments
- Understanding and auditing controls operation in the treasury environment

COURSE FOCUS AND FEATURES

This intensive training course is designed to offer treasury auditors, whether in corporations or financial institutions, a thorough coverage of the techniques available of the modern treasury management and its audit. The complexity of cash management in modern financial markets has placed much more emphasis on the treasury function. This not only involves keeping control over increasingly complex interest rate and currency exposures, but also keeping abreast of the latest techniques for managing those risks whilst effectively managing the funds of the institution.

INCLUDED IN THE FEE:

- Expert training in your topic area
- CPE Points and Certificate
- Lunch during Training Days
- Training Materials

Please note that all courses are taught in English and that a certain level of English is required to benefit from this training course.

For a full list of terms and conditions and our cancellation policy please visit our website at www.misti.com

WHO SHOULD ATTEND?

This course specifically designed for those who are required to conduct internal audit assignments within treasury functions in FI's

COURSE DIRECTOR:

DENNIS COX

Dennis William Cox, BSc FCSI FCA is a leading financial services risk management and internal audit specialist. He has held senior management positions within the banking and accountancy profession as Director, Risk Management at HSBC Insurance Brokers Limited and Director, Risk Management, Prudential Portfolio Managers. Formerly he held a number of roles within the audit profession at HSBC Holdings PLC. He has significant expertise in total risk management, risk-based internal audit, treasury, credit, liquidity, operational and market risk.

Dennis specialises his advisory services and lectures on the modernisation of internal audit. He also addresses internal audit as a driver for organisational change in banking. He is a specialist in audit for credit, treasury, operations and the Basel Accord.

METHODOLOGY

The teaching method will include lectures, group discussions and the development of audit programmes.
