(USA East Coast Time)

Venue Details

Experience the highly-interactive expert-led social learning through Virtual Classroom via Cisco WebEx from Risk Reward.

All our 2021 Virtual Classroom events feature shared (or discrete) live chat between delegates and the expert, participate in topical surveys, polling questions, group exercises and case studies for a tried -and- true engaging and gratifying learning experience.

"It is a very good course in terms of risk/control framework and with useful information sharing. Very organized and comprehensive"
 Risk Manager, French Corporate & Investment Bank, Taiwan

Overview

This intensive highly interactive intermediate-level programme will provide delegates with the knowledge needed to review, benchmark and refine operational risk plans within your organisation.

The course focuses on both qualitative and quantitative techniques, offering integrated solutions for operational risk and suggesting approaches to the problems that an organisation will face in meeting these demanding requirements.

Who should attend

- Heads of Risk
- Risk Managers
- Board directors
- Heads of Audit
- Audit managers
- Heads of Compliance
- Project managers
- Business heads
- Risk management professionals
- Any professional who needs to know how operational risks affect their organisation

Course Information

What Does It Cover?

The practical aspects of measuring and managing operational risk in any organization which includes the most in-demand topics of Risk Control Self-Assessment (RCSA) and Key Risk Indicators (KRIs), Stress-Testing and Scenario Analysis.

Learning Objectives

The objective is for delegates to fully understand the stages and techniques in implementing an operational risk structure that will meet the demands of your senior management and other stakeholders to include:

- Understanding operational risk
- Understanding the activities in managing operational risk
- Establishing and using an internal loss database
- Use of external loss data
- Development and use of both stress testing and scenario analysis
- Identifying mitigating techniques
- Development and use of key risk indicators
- Consideration and use of risk and control self-assessment
- How to identify and measure operational risk

"[Course] offers a fresh perspective on processes and controls. Reorganising our thinking process as to how to map out the controls and clarifying ownership in risk management and audit"

Risk Manager, Egyptian Corporate, Cairo.

Who Should Attend

Risk managers and staff, risk champions plus – as our clients have demonstrated - internal auditors who often meet only on this course, as well as legal, finance, compliance, operations and HR managers and staff who interface with the risk functions within their organisations.

Social Learning & Methods

Highly interactive expert-led intensive presentation, Q&A, group real-time in-depth case studies, regulation and discussion supported by key principles and theory. The

virtual learning platform uses safe, industry preferred encrypted Cisco WebEx to optimize live face-to-face visual interaction, discrete chat, for polling

and quizzes. (An invitation via email with access link is included for all participants.)
